

PRIYANSHU TIWARI

Full-Stack Developer | MERN Stack | GenAI & Agentic AI

9630815802 | ppriyanshuttiwari2003@gmail.com | Bhopal, Madhya Pradesh | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full-Stack Developer specializing in the MERN stack with hands-on internship and project experience building web applications using React.js, Node.js, Express.js, and MongoDB. Experienced in JWT-based authentication, role-based access control, REST API development, payment processing, cloud media management, third-party API integration, and AI/LLM integration. Actively building practical GenAI and agentic AI workflows to combine full-stack engineering with modern AI capabilities.

TECHNICAL SKILLS

Languages	JavaScript, Java, SQL
Frontend	React.js, HTML5, CSS3, Bootstrap, Responsive Design
Backend	Node.js, Express.js, REST APIs, Middleware, API Integration
Database	MongoDB, Mongoose
Auth & Security	JWT, HTTP-only Cookies, Authentication, Authorization, Role-Based Access Control
AI / GenAI	LLM API Integration, Prompt Engineering, Structured Outputs, SSE Streaming
APIs & Services	Razorpay, Cloudinary, Google Maps API, External REST APIs
Tools	Git, GitHub, Postman, VS Code

EXPERIENCE

RICR Bhopal – Intern

MERN Stack Developer

3 Months

- Developed and enhanced web application features using React.js, Node.js, Express.js, and MongoDB.
- Worked with REST APIs, frontend-backend integration, database-driven workflows, debugging, and feature implementation.

LMS Content Developer

3 Months

- Created and structured digital learning content for an LMS platform, focusing on organized and learner-friendly course material.
- Worked with software-based content management and online learning workflows.

PROJECTS

Cravings – Full-Stack Food Delivery Platform

[GitHub](#) | [Live Demo](#)

Technologies: React.js · Node.js · Express.js · MongoDB · Razorpay · Cloudinary · Google Maps

- Built and deployed a multi-role food delivery platform with dedicated workflows for Customers, Restaurants, Riders, and Admins.
- Implemented JWT-based authentication and role-based access control to secure protected REST APIs and application workflows.
- Developed end-to-end restaurant ordering and order-status workflows, including customer ordering, restaurant processing, rider pickup, and delivery tracking.
- Integrated Razorpay payment processing, Cloudinary media uploads, GPS-based rider tracking, Google Maps navigation, and order tracking.

VerdantX – Environmental Intelligence & Health Advisory Platform

[GitHub](#) | [Live Demo](#)

Technologies: React.js · Node.js · Express.js · MongoDB · Groq AI · Leaflet · SSE

- Built environmental dashboards integrating real-time AQI and weather APIs with an EPA-based risk engine for environmental health classification.
- Integrated Groq LLMs to generate structured health reports and developed an SSE-streaming environmental AI assistant for incremental responses.
- Developed route pollution analysis, civic issue reporting, automated alerts, and Leaflet-based environmental mapping using multiple external APIs.

AgentDesk – GenAI Research & Action Assistant

Technologies: React.js · Node.js · Express.js · LLM API · Tool Calling · JSON / Structured Outputs

- Built a lightweight agentic AI assistant that accepts a user goal, plans a sequence of actions, and selects backend tools to complete tasks instead of generating only text.
- Implemented tool calling with reusable functions for knowledge lookup, text summarization, and structured task output.
- Added conversation context, structured JSON responses, basic failure handling, and a React interface to visualize the agent's plan, tool execution, and final response.

EDUCATION

Master of Computer Applications (MCA) – 7.5 CGPA

SIRT College, Bhopal | 2024 – 2026

Bachelor of Computer Applications (BCA) – 7.7 CGPA

LNCT College, Bhopal | 2021 – 2024
